

dedicated to finding a cure

UNIQUE OPPORTUNITY TO MAKE A DIRECT CONTRIBUTION TOWARDS FINDING A CURE!

FUND A CURE

JDRF HAS A TRACK RECORD OF SUCCESS

JDRF's research strategy is focused on accelerating progress and moving potential treatments and cures as quickly as possible through the research pipeline in order to benefit people in the near term.

Our donors have been the driving force behind funding innovative projects that can significantly impact the lives of people with type 1 diabetes today. Our involvement in continuous glucose monitors and the creation of an artificial pancreas are great examples of JDRF's unique ability to focus research on improving lives while searching for a cure. Our continuous glucose monitor research was named one of the top 10 medical breakthroughs of 2008.

You have the opportunity to direct contributions to this vital research at the Spring Gala. We are dedicating the Fund A Cure contributions in honor of Jeanne and Tom Grist. Your Fund A Cure gift is 100% tax-deductible and goes directly to funding research.

Here is how FUND A CURE works:

The auctioneer will call out funding levels of \$10,000, \$5,000, \$2,500, \$1,500, \$1,000, \$500, \$250 and \$100

When you hear the level at which you wish to contribute, simply raise your bid card and hold it there until your bid number is called out. You then pay for your donation at the cashier station at the end of evening. If you use Express Pay, we will send your receipt.

The Western Wisconsin Chapter greatly appreciates the generous donations of those people who could not be with us this evening but made a contribution to the Fund A Cure auction prior to the event.

If your company has a Matching Gift Program, please ask the cashier for a matching gift pledge form when you check out at the end of the night because your Fund A Cure donation may be eligible.

Thank you!
