## We believe that education is the key to successful diabetes management.

Animas is proud to offer an educational retreat for families of children with diabetes to learn more about how to manage diabetes in their daily life and how to work with others who may care for their child. This is also a chance for your family to network with other families who have a child with diabetes. A half day of educational workshops will be held on Saturday, November 6th. We welcome you and your children, along with other "caregivers" you may choose to have join you, including, grandparents, sports coaches, school nurses, babysitters, etc. It will be an event you won't want to miss!
